About Steven Whittaker

22 Years ago Steven decided to enter the mortgage business. The industry has gone through its ups and downs a few times since then. However, one thing has remained constant, Steven's drive to create success for himself and his clients.

From day one Steven's approach has always been relationships for life. By integrating his clients mortgage transactions into their overall financial plan, he creates a deeper relationship with his clients, and he has forged incredible personal bonds with many of them. "It's amazing how when you focus on your clients goals and dreams how they will return time and time again for their mortgage needs" says Steven.

He employs, personally, the exact same strategies and techniques that he recommends for his clients. And though each client's situation is unique, the wealth building tools work the same for every client, regardless of their current financial picture. As he always says, "We are all in this together".

As he continues his quest for knowledge and strategies to create better financial awareness for himself and his clients, he commits himself to more than one month, each year, of continuous training through seminars, direct study and mentorship.

"My wife Sharon, and my four kids compel me everyday to be a better person. I focus on faith, family, friends, relationships, and giving" he says "the rest will take care of itself". Steven has always believed in the law of reciprocity; if you help enough other people get what they want you will get anything you want!

So; for Steven this is not a "Job" but an adventure, and a mission, to reach out to many more future clients to help each one of them achieve their dreams!
