Online Meetings Made Easy

GoToMeeting is a Web conferencing tool that allows you to meet online rather than in a conference room. It's the easiest and most cost-effective way to organize and attend online meetings. Patented technology enables co-workers, customers and prospects to view any application running on your PC in real time. With the flexibility to meet in person or online, you'll be able to do more and travel less.

With **GoTo**Meeting, it's easy to conduct on-the-fly or scheduled presentations with a prospective customer, perform live demonstrations in real time, collaborate on documents with your colleagues and provide training to customers and employees. Within seconds you can be improving your productivity and generating more revenue.

Your meeting attendees can easily join your meetings in seconds. They just click a link in an emailed meeting invitation or enter the meeting ID at JoinGoToMeeting.com.
