

SitePal™ What does *your* site say?

Enable your site
with the power of voice

What is SitePal?

SitePal is an Internet service that allows you to create and add a fully customizable speaking avatar to your websites, Flash applications and emails. Programming skills not required.

Go Beyond Flat Text!

- Communicate with impact
- Enrich the user experience
- Engage visitors
- Stand out

Our “Virtual Steve” has received great reviews from our clients! In addition to being on pages throughout our website, I also use him to explain the different financing options to clients via email. This has been great because they are able to replay him as many times as needed to absorb the content.
